With One Treatment

RUBBED ON throat and chest, Vicks does two things at once:

(1) It vaporizes by the body heat and inhaled through the inflamed air passages, and

(2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

## Jap Fishermen Alarmed

Soviet Russia Takes Steps To Curtail Fishing Zone

Canada some years ago took steps to restrict Japanese fishermen in British Columbia waters by reducing the number of boats in force and refusing Japanese the privileges of recruiting new men, and now Soviet Russia is taking strong measures to restrict Japanese fishermen on the Sea of Okhotsk and Kamchatka coasts.

Japanese fishermen interests are somewhat alarmed by the activity of the Russians in the Kamchatka fishing grounds and the reported intention of the Soviets to obtain control over the large proportion of the available fishing zone.

It is reported that the Russians plan to take over more than thirty per cent of the salmon fishing zone in Kamchatka, and that they probably had approximately forty per cent.

Every year the authorities at Kamchatka hold an auction at which bids are offered for the fishing zones. The Soviet has in the past restricted the activity of private Russian operators with the result that Japan has been the main bidder.

The Soviet has apparently changed its policy, however, and is now bidding as an independent operator to go ahead and secure as many licenses as they desire.

In order to further favor the Russian license for Japanese fishermen has been increased. The Russians are said to be very much offended by the fact that the Russians are forced by Japan in its territory to hunt the Japanese fishermen and Soviet fishermen in the waters of the two nations in rival territory is becoming increasingly bitter.

**Rust Control Is Possibility**

Scientific Report To Publish Findings In About Two Years

Rust, the public farmers' greatest enemy, has been backing up before the onslaughts of agricultural scientists. This should prove to be a possibility that the disease which annually takes away heavy toll will be completely eradicated.

These optimistic notes were sounded at Saskatoon by representatives of the Canadian rust control committee, which for a decade have been battling this scourge. Asked by Dr. J. C. Griest, assistant minister of agriculture, "How near is the solution of rust?" the committee members replied optimistically that the wheat-rust-fighting results had been obtained, but that the consumption of Cuban products, principally sugar and tobacco, in Canada.

# Temporary Trade Treaty With Russia Contains Special Community Clause

London, Eng.—Will Canada take advantage of the opportunity to secure a temporary commercial treaty between Britain and Russia, signing in London, which permits the British Government to participate if they wish?

The most important part of the treaty, from Canada's point of view, is that which deals with diplomatic immunity for consular officials and their families. As all trade in Russia is carried on under consular supervision, a consular situation has arisen. The Soviet Government has been asked to grant diplomatic immunity to British consular officials like the head of Arctic (Arctic) trade headquarters in London, which resulted in the last few days in the relations between the two countries, and in making the treaty, which has obtained from H. H. Arthur Henderson, foreign secretary, in London, to the effect that the trade officials which are used exclusively for commercial purposes.

They have also been granted diplomatic immunity for three persons, namely, the head of the Soviet trade representative and two of his dependents who will form part of the Russian embassy. The clause will be put before parliament in the House of Trade.

The clause agrees in the treaty, that would have to accept a Soviet trade mission to Canada, to provide protection and it is believed that it is upon this point the principal attitude of Canada will be concentrated.

Official Opening Of Bay Road Not Likely This Year

Ottawa, Ont.—Participation of the government in the opening of the Hudson Bay Railway for navigation next year is likely. The road was completed into Churchill from the Prairies over a year ago and it was anticipated that the opening would be celebrated last summer.

A number of factors have developed which may have the effect of causing the opening of the road to be delayed. The first of these is the fact that the opening of the road would be a major event in the life of the government.
